

Covert Intelligence Society (CIS)

The Covert Intelligence Society (CIS) is a private membership of intelligent, innovative thought leaders. Society members are trained by former CIA case officers in the art of clandestine service to enhance their business and daily lives.

Stalin's Alternate Command Headquarters "Tagansky"- Bunker 42" 65 Meters Beneath Moscow, Russia

- When the status quo is worse than death
- When travel to exotic places should be for a purpose
- When making money was never your endgame
- When more expensive toys is just tacky
- When measuring the full distance of your potential is a must
- When life should be a true adventure

Covert Intelligence Service was created to find solutions to the world's greatest problems. Our background ranges from CIA, NSA, MI6, DIA, SFOD (Delta Force) & KGB.

After 15 years of service, we realized that we are missing something invaluable. What we are missing will bring a completely different perspective to our intelligence agency. We are looking to develop a new kind of team.

In 1999, Russian Chess Grandmaster Gary Kasparov played a single chess game against a large group of amateurs. He ended up winning but said he had never expended as much effort on any other game in his entire life. He later said, "It was the greatest game in the history of chess."

Covert Intelligence Society (CIS)

The missing element is and has always been YOU. We want you on our team. We are inviting you to become a member of Covert Intelligence Society.

We will provide you with a lifetime's worth of training sessions. Many years and hundreds of millions of dollars were spent to train us. Tens of thousands of field hours will be compressed and uploaded directly to your brain. All trainings are based on live, ongoing operations with real bad guys we are currently persuing. You will help change the world.

The Director
Covert Intelligence Service

Dear Future Agent,

It is a great pleasure to write to you and personally invite you to be a key part of our intelligence agency. Covert Intelligence Society is vital to the success of Covert Intelligence Service. We want you on our team.

To proceed to the next level of engagement, we require an extensive application process, proof-of-funds and an Interpol background check.

However, this is a personal invitation we are extending directly to you. You have already been vetted and approved.

As a member you will have the opportunity to engage with other very successful business executives and thought leaders.

As a level of protection for you and our members, we only invite people who we have thoroughly vetted. Members who are subsequently invited by other members will be required to have an extensive background check as well.

Once you become a member, we will extend this and many other helpful services to you. Our resources are yours.

When you are ready to accept your new adventure and lifestyle we have planned for you, please contact the individual who extended this invitation to you. Let them know you would like to be contacted. The next step will be to have a team of agents fly to wherever you are to show you a bit more about what we do and answer any questions. We look forward to recruiting you soon.

Sincerely,

Jake Collins
